 Bilbao

Welcome to my page!

I'm Yelyzaveta, but you can call me Liza, I'm a full-stack web developer. My first programming experience was when I was just 10 years old trying to build website for my hamsters. Since then, I've graduated as software engineer and now keep learning programming technologies. According to the test of 16 personalities I am an INFP-T Mediator

EDUCATION

Web developement bootcamp

Udemy | spring 2020

I've gained a lot of experience in web development by watching over 50h in video of extremely useful programming theory and 25+ apps, websites and browser games built to practice learned theory. You can see some of them on my web in project portfolio section.

Estudiante erasmus

Universidad del País Vasco | spring 2019

Estudiante erasmus

Universidad Politécnica de Valencia | autumn 2017

Grado en ingeniería de software

Universidad Politécnica de Odesa | 2014 - 2019

During that 4,5 years of studying there I've gained a lot of knowledge about IT world and software engineering major, ranging from soft skills and psychology to different programming languages and business organization. I've also participated in different cultural events, summer schools (Spanish,

WORK EXPERIENCE

Salesforce developer

Intern | autumn 2018

My tasks consisted of taking a trailhead course and resolving some typical tasks of junior developer at the company.

Interpreter, client support

Freelance | 2015-2017

I've improved a lot my spoken and written English and Spanish.
